

COMPACTION RANGE

# TEN 35

## Reversible plate compactors

The range of reversible Plate Compactors TEN 35 are the best option for important works on granular materials.

- Optimum frequency and amplitude for compaction
- Easy draining of engine oil
- Dead man system
- Electric start of both petrol and diesel machines
- Eccentric system to easily adjust the belt tensioning
- Optimized engine for demanding jobs

**+ Absorption system**

Designed for ergonomic work thanks to their vibration-absorbing handle.

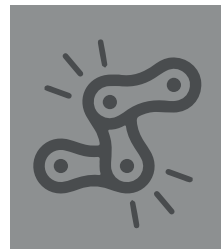

**+ Performance**

The TEN 35 achieves high work performance in both cohesive and non-cohesive soils.

**+ Low noise levels**

ENAR's TEN 35 range transmits a low noise level, improving user comfort.

**+ High resistance**

ENAR's TEN 35 have been tested in the toughest working conditions.

### Technical Data

MODEL	Weight without fuel (kg)	Centrifugal force (Kg)	Speed (m/min)	Dimensions (LongxWidexHigh)	Plate length (mm)	Engine	Fuel	Frequency (vib/min)	Power (CV)	Start up
TEN 35GH	201	35	0-25	815x500x1110	700	HONDA GX270	Petrol	4,800	8.5	Manual
TEN 35GHEL	205	35	0-25	815x500x1110	700	HONDA GX270	Petrol	4,800	8.5	Electric
TEN 35DH	210	35	0-25	815x500x1110	700	HATZ 1B30	Diesel	4,800	7.3	Manual
TEN 35DHEL	215	35	0-25	815x500x1110	700	HATZ 1B30	Diesel	4,800	7.3	Electric
