

VIBRATION RANGE

VEAF

High frequency external vibrators

- The clamp counts with a safety strap
- Compatible with different types of formworks
- High load capacity bearings, lubricated with special "long-life" greases
- For all kinds of uses: Precast, formwork, hoppers, tables, belts and vibrating screens...

+ Adjustable force

The different models and the eccentric regulation allow adjustment to a wide range of needs.

+ IP65 Protection

Hermetic housing that protects the equipment against external agents such as dust and rain

+ Resistant

Long life high-strength aluminum housing, that performs in adverse working conditions.

+ Quick coupling

Optional clamps compatible with different formworks, saving time in assembly and operation.

Technical Data

MODEL	Weight (kg)	Centrifugal force (Kg)	Rated current (A)	Oscillations (r.p.m.)	Dimensions CxDxE (mm)	Fixing dimensions AxB (mm)	Cord (m)	Connexion	Diameter Ø G (mm)
VEAF 650	9	650	12	6000	260x160x140	125x90	10	*	12.5

*Possibility of coupling a Spyder Pro or i-Spyder. (Those ones have a 230v~50/60Hz connection supply versus the 42v of the standard VEAF models)
